

## BAR & NIGHTCLUB POS SYSTEM

*Keep customers happy while monitoring your profits*

### TOTAL MANAGEMENT CONTROL OF YOUR BAR AND NIGHTCLUB

Restaurant Manager's Bar & Nightclub POS System delivers the speed customers expect, the features bartenders want and the security you need. The POS software makes service faster and billing more accurate. In addition, Bar & Nightclub can seamlessly integrate with other functionality for Restaurant Manager Table Service or Restaurant Manager Carry-Out if needed.

### BUSINESSES WHO USE THIS POS SOFTWARE BENEFIT FROM:

- **Fast Order Switching** – Quickly and easily switch between existing orders and start new orders directly from the order entry. Workflow at a busy bar or club can be significantly streamlined with the number of touches cut by 60%.
- **Print/Display for Food Prep** – Make fewer kitchen errors and improve customer satisfaction with features such as “updated item” banner alerts and displaying the quantity for modifiers.
- **Guest Checks & Receipts** – Reprint receipts from any date at the POS with the original date stamp and split checks by quantity (ex: number of wings consumed), improving customer communications.
- **Automatic Price Scheduling** – Schedule happy hour promotions or appetizer specials to make sure you collect the right amount at the right time.
- **Age Verification** – POS reads all valid government issued ID Cards or driver's licenses; protect your staff when serving liquor.
- **Speedy Transaction Times** – One touch “next round” ordering, quick tab pre-authorizations, finding an open tab to add or settle, and easy tab transfers deliver speed customers have come to expect.
- **Real-time Alerts** – Maximize your management impact. For example, an alert will identify a big spender so you can provide personalized service or move them to a high-margin VIP area.
- **Recipe Look-Ups** – Give bartenders instant access to drink recipes from the bartender's bible.
- **Back Office Reporting** – Whether it's running reports on new recipes or having the option to delete old orders by customers, you will be able to improve management with these reports and stay in compliance with local regulators.
